

**Indiana Tech Partnership**

BeckyK, Monday 01 April 2019 - 12:47:06

***Indiana Tech Partnership with the John Jay Center for Learning!***

**Students interested in signing up for Indiana Tech classes through John Jay Center for Learning will need to use this link in order to qualify for the 20% tuition discount: [Click Here](#)**

***Students who have earned certifications in Industrial Maintenance***

***Training can use that certification and turn it into credits with Indiana Tech.***

GO FOR IT.

INDIANA **TECH**

**01** **Career-Focused Certificates and Degrees**  
Indiana Tech offers 45+ career-enriching certificate and degree programs to help your organization grow its leaders of today and tomorrow.

**02** Our quality academic programs are taught by experienced industry professionals who prepare students with the right skills for your workplace.

**03** Indiana Tech can work with your organization to establish deferred tuition options that make attending school easier for your employees.

**04** Whether taken entirely online or at one of our regional learning centers, our classes are designed to fit the busy lives of working professionals.

**05** Classes start every six weeks. Students can start any time, take one class at a time, and make rapid progress toward their degree.

**06** Student success advisors provide students with support and resources to help them succeed.

**07** Your organization's personal admissions representative will help your employees every step of the way to ensure they fulfill their academic goals. Additionally, the Warrior Information Network (WIN) is a one-stop resource that's dedicated to helping our partner organizations and students alike.

**08** As a not-for-profit university, Indiana Tech works for students, not shareholders. We keep our degree programs highly affordable and textbook rental is included in tuition.

**09** For qualifying employers, Indiana Tech can also develop scholarship programs. Such programs can offer a compelling benefit for partners to offer their team members.

## Take Charge and Advance Your Career

Indiana Tech can help.

Employers throughout Indiana and the Midwest have indicated a great need for exceptionally qualified professionals for positions in advanced manufacturing, engineering, electrical and mechanical operations and computer systems. A degree from Indiana Tech equips students with the skills needed to confidently fulfill roles like these.

Our associate and bachelor's degree programs are designed to prepare students for success in technical careers. Gain essential knowledge in engineering and technology, as well as communication, collaboration and project leadership.

Invest in your future and take your career to the next level. Talk to your personal admissions representative about degree programs like:

- Construction Management
- Electrical Engineering Technology
- Industrial and Manufacturing Engineering
- Mechanical Engineering Technology
- Organizational Leadership
- Production Management
- Supply Chain Management

At Indiana Tech, classes start every six weeks and are offered online, on site at one of our regional locations, or a combination of both. Take one class at a time and make rapid progress toward degree completion.
